

State Pediatric Medicaid and CHIP Medical Home Initiatives: At-A-Glance Table

Created by the National Center for Medical Home Implementation (NCMHI) in partnership with the National Academy for State Health Policy (NASHP), this state at-a-glance table provides an overview of **pediatric** medical home initiatives occurring through Medicaid and the Child Health Insurance Program(CHIP). By learning about ongoing pediatric medical home initiatives in your state, pediatric clinicians, practices, state Title V agencies, American Academy of Pediatrics state chapters, and others can gain insights on how to integrate their work and coordinate efforts across multiple systems.

For more information, visit www.medicalhomeinfo.org/state_pages or contact Alex Kuznetsov at akuznetsov@aap.org.

State (Links to NCMHI State Page)	Patient-Centered Medical Home (PCMH) Programs		Health Home Programs State Plan Amendments (SPAs)		State Innovation Model Testing Grants (Links to NCMHI Pediatric Specific Profiles)	State Implementation Grants for Enhancing the System of Services for Children and Youth with Special Health Care Needs through Systems Integration (Links to Project Abstracts)
	Active Medicaid/CHIP Participation and Payment In PCMH Programs* (Links to NASHP State Page)	Examples of Pediatric Medical Home Activity	Approved Health Home SPAs Title (Links to SPA Description)	Examples of Health Home Programs with Focus on Pediatric Population		
Alabama	X	The Patient Care Networks of Alabama (PCNA) are community-based networks that assist primary care medical providers to become medical homes, coordinate care, and teach self management skills. Pediatricians within a PCNA have access to additional supports such as assistance with social worker management and follow-up for referral outside of the practice. View the NCMHI Alabama State Profile focusing on the Patient Care Networks of Alabama.	Alabama Health Home State Plan Amendment	Alabama's Health Home program serves children and adult Medicaid enrollees with chronic conditions and/or serious mental illness. Improving preventive care for children is a specific goal of the program.		
Alaska						X
Arizona						
Arkansas	X	Pediatricians participate in the Arkansas PCMH program, an initiative launched in January 2014 under the state's Health Care Payment Improvement Initiative. Participating providers will be reimbursed for certain episodes of care.			Round 1	
California						
Colorado	X	The Accountable Care Collaborative connects Medicaid beneficiaries, including children, to medical home providers that contract with Regional Care Collaborative Organizations (RCCOs). RCCOs support practices with efforts such as reporting and care coordination. View the NCMHI Colorado state profile for more information about Colorado's RCCOs.			Round 2	X

Connecticut	X	HUSKY Health runs a PCMH program that serves children and adults. The program mandates medical home practices meet Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) requirements and track certain pediatric specific measures. Connecticut also runs a Glide Path program that provides additional support to practices transforming into medical homes. View the NCMHI Connecticut state profile for more information on Husky Health and the Glide Path Program.			Round 2	
Delaware					Round 2	
Florida						
Georgia						
Hawaii						
Idaho	X	The Idaho Medical Home Collaborative is a multi-payer medical home pilot serving children and adult Medicaid beneficiaries. Practices are required to report on quality measures including preventive measures targeted at children.	Idaho Health Home State Plan Amendment	Idaho's health home program serves children and adult Medicaid enrollees with chronic conditions. Pediatric specific goals of the program include improving care for asthma among children and increasing preventive care for children.	Round 2	
Illinois	X	Illinois Health Connect is a primary care case management program for adult and children Medicaid and CHIP enrollees.				
Indiana						X
Iowa	X	Iowa provides PCMH services through its two Health Home programs.	Iowa Health Home State Plan Amendment Iowa Health Home State Plan Amendment for Adults and Children with Severe and Persistent Mental Illness	Iowa's first health home program was launched July 1, 2012 to serve children and adult Medicaid enrollees with chronic conditions. Iowa's second SPA allowed for the launch of Integrated Health Homes on July 1, 2013. This program focuses on integrating primary care and behavioral health services for children with serious emotional disturbance and adults with serious mental illness. View the NCMHI Iowa state profile for more information about Iowa's SPA programs.	Round 2	X
Kansas			Kansas Health Home State Plan Amendment			
Kentucky						
Louisiana	X	Children and adult Medicaid beneficiaries in Louisiana receive medical home services through Bayou Health, the state's Medicaid managed care program. Participating practices receive assistance in achieving medical home practice changes.				
Maine	X	In the Maine PCMH Pilot, participating adult and pediatric practices are supported in their continued transformation to a more patient-centered model of care with resources such as a learning collaborative, practice coaching, and consultation with key experts.	Maine Health Home State Plan Amendment	Stage A of Maine's Health Home model launched in January 2013 and uses a community care team approach to address care for children and adults with chronic conditions. Stage B focuses on behavioral health conditions for children and adults and launched in January 2015.	Round 1	
Maryland			Maryland Health Home State Plan Amendment	Children and youth with Serious Emotional Disturbance have access to health home services through a Psychiatric Rehabilitation Program.		
Massachusetts					Round 1	X
Michigan	X	The Michigan Primary Care Transformation (MPCT) Project supports providers through payments and educational opportunities including trainings for pediatric care managers.			Round 2	

Minnesota	X	Minnesota's Health Care Homes program includes payments to primary care providers for partnering with patients and families to provide higher quality care and care coordination for children and adults with chronic health conditions.			Round 1	X
Mississippi						
Missouri	X	Children and adult Medicaid beneficiaries may receive medical home services through Missouri's Health Home programs.	Missouri Community Mental Health Center Health Home State Plan Amendment Missouri Primary Care Practices Health Home (PCP-HH) Clinic - State Plan Amendment	Individuals eligible for a CMHC Health Home include children and adults with serious and persistent mental illness, those with a mental health condition and substance abuse disorder, or those with a mental health condition and/or substance abuse disorder and one other chronic condition.		
Montana						
Nebraska	X	Nebraska's multi-payer medical home pilot includes reporting on specific pediatric measures such as immunizations, developmental screening, weight screening, and asthma.				
Nevada						
New Hampshire						
New Jersey						
New Mexico						
New York	X	Children and adult Medicaid beneficiaries may receive medical home services through New York's Health Home programs.	New York Health Home State Plan Amendment for Individuals with Chronic Behavioral and Mental Health Conditions New York Health Home State Plan Amendment	Though children are eligible to participate in New York's Health Home programs, the state is currently working with existing Health Homes to better serve children. Enrollment of children will begin in October 2015.	Round 2	
North Carolina	X	Children and adult Medicaid beneficiaries in North Carolina receive medical home services through Community Care of North Carolina's (CCNC) regional provider networks. CCNC has begun pediatric-specific initiatives such as the Child Health Accountable Care Collaborative which provides enhanced care coordination to children with complex health conditions.	North Carolina Health Home State Plan Amendment			
North Dakota						
Ohio	X		Ohio Health Home State Plan Amendment	Health Homes provide services to adults with serious mental illness and children with serious emotional disturbance.	Round 2	
Oklahoma	X	Under the SoonerCare Choice program, all participating children and adult Medicaid beneficiaries are assigned to a medical home. The program has specifically addressed pediatric asthma and worked to increase the number of children receiving appropriate asthma medications.				
Oregon	X	Oregon's Patient-Centered Primary Care Home (PCPCH) Program works closely with the state's Coordinated Care Organizations (CCOs) to provide integrated and coordinated care to the state's children and adult Medicaid beneficiaries. View the NCMHI Oregon state profile for more information about Oregon's CCOs.	Oregon Health Home State Plan Amendment		Round 1	X
Pennsylvania						

Rhode Island	X	The Chronic Care Sustainability Initiative (CSI-RI) is a multi-payer medical home initiative with the goal of providing comprehensive primary health care for children, youths, and adults. Participating practices receive practice coaching and participate in learning collaboratives.	Rhode Island CEDARR Family Center Health Home State Plan Amendment Rhode Island Community Mental Health Organization Health Home State Plan Amendment Rhode Island Opioid Treatment Program Health Home Services State Plan Amendment	Rhode Island's first approved Health Home SPA focuses on children and youth with special health care needs served by CEDARR Family Center.	Round 2	X
South Carolina	X	Under the Medical Homes Network Program, the state contracts with Care Coordination Service Organizations and provide care coordination fees to providers. Each network is evaluated on pediatric measures including EPSDT and childhood immunizations.				
South Dakota	X	Children and adult Medicaid beneficiaries may receive medical home services through South Dakota's health home program.	South Dakota Health Home State Plan Amendment			
Tennessee					Round 2	
Texas						
Utah						X
Vermont	X	Vermont's medical home program uses community health teams to provide care coordination services to children and adults. Participating pediatricians have access to practice support through the Vermont Child Health Improvement Program. View the NCMHI Vermont state profile for more information about Vermont's community health teams.	Vermont Health Home State Plan Amendment		Round 1	X
Virginia						
Washington			Washington Health Home State Plan Amendment	Health Homes in Washington serve adult and children Medicaid beneficiaries with one chronic condition and risk for a second. Care Coordinators develop Health Action Plans that include specific pediatric screenings on parenting and childhood behavioral problems.	Round 2	X
West Virginia						
Wisconsin	X	Children and adult Medicaid beneficiaries may receive medical home services through Wisconsin's health home program for enrollees with an HIV diagnosis.	Wisconsin Health Home State Plan Amendment			X
Wyoming						

* PCMH activity related to SIM grants is not included in this list.

**All six of the Round 1 Testing States have Medicaid/CHIP participation and include a patient-centered medical home feature. Arkansas and Maine also include a Health Home feature.
